

POURING THE PERFECT MIX & MATCH

Pour the lager first. Hold the glass under the faucet and tilt slightly. Do not let the glass touch the faucet. Grab the handle at the base. Open the faucet fully in a quick, smooth motion. Do not let the faucet touch the beer.

Straighten the glass gradually as you pour, stopping when it is only 3/4 full.

Place the glass flat directly under the Bare Knuckle Stout faucet. Hold the pouring spoon upside down underneath the faucet. Open the faucet slowly. Pour the stout on top of the spoon.

The stout "floats" on top of the lager. Your customers will enjoy the unique characteristics of a perfectly poured Mix & Match.
